

Global Manufacturing Group

Recipient of the ENERGEX 20th Anniversary Supplier Quality Awards

In March this year GMG was invited to attend the Energex 20th Anniversary Supplier Quality Awards, Richard Aylward and Tim Pienaar represented GMG at this function not realising or considering that a regional supplier from Maryborough would be a contender let alone a front runner, not only were we a front runner but as it would be revealed the winning recipient of the 2010 Supplier Quality Awards for the category of Materials General. We display this award with great pride with the acknowledgement of being selected out of potentially thousands of suppliers throughout Australia.
